AN INGENIOUS BUT DEBLOTAL SOUTH CAROLINAS

[Apropos to the recent grant of the application for a renewal of a patent of an easy chair, invented by a citizen of South Carolina, the New Orleans Delta gives the following story, as quite current winter before last :]

Judge Evans, the late Senator from South Carolina, was a very carnest, sincere, and venerable old gentleman, who, under an exceedingly gentle, mild, and clerical exterior, concealed some very decided points of character, among which was an intense State pride, and a strong bins in favor of the institutions, and even the weaknesses and defects of his own native State. To him, South Carolina was the beau ideal of everything good, admirable, and great. Her errors and defects were to him virtues and endowments. And, though it was not in the nature of the good old man to hate anybody or anything, he cherished a very decided repugmance to the institutions, ideas and customs of New England. For any South Carolinian to possess any of the qualities, the accomplishments or tastes of any of the people of that section, was, in the view of the old Senator, a serious breach of faith and duty to his honored and beloved Palmetto State.

Now, it happened that Judge Evans was applied to by a young South Carolinian, who had invented some ingenious mechanical contrivance, which he desired to have patented. The young applicant introduced himself as the son of an old friend and follow parishioner of the Judge, and begged his favor and aid in obtaining

his letters patent. The venerable Senator, raising his spectucles, and fixing his eyes in wonder and amazement on the ingenious young Carolinian, in his mild but emphatic tone, interrogated him as follows :

"You are the son of Col. H., of St .---Parish, South Carolina, who was born in

the said parish ?" "I am, sir," promptly responded the

young man. "The grandson of Gen. H., who served under Gen. Sumpter, in the Revolutions-

ry War ?" "Yes, sir," was the prompt reply. "Your mother was the daughter of Mrs.

Nancy ----, who set fire to her mansion in the Revolution, to prevent the British occupying it?" "Yes, sir," enthusiastically exclaimed

the representative of one of Carolina's proudest families. "And you," continued the patriotic old Senator, "have been educated at ----. in ----, and instructed in the principles, duties and knowledge of your post-

tion, your birth and family ?" "Yes, sir," modestly remarked the now

impatient youth.

"Then, sir," exclaimed the Judge, in a ter than those buried only two inches; toms of your State, upon the sentiments and principles of your family, your sucestors and your countrymen, and degrade yourself to the level of a common wooden nutmeg Yankee, by inventing a labor-saving machine ?"

The ingenious, but, alas! high-born young Carolinian, was so affected by the foreible manner in which the Senator presented the enermity of his conduct, that election!
